### **DETAILED ACTION**

1. Applicant's election without traverse of claims 1-14 in the reply filed on 10/12/05 is acknowledged.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 15-19 non-elected without traverse. Accordingly, claims 15-19 have been cancelled.

### ***Reasons for Allowance***

3. Claims 1-14 are allowed.
4. The following is an examiner's statement of reasons for allowance:  
  
The prior art of record fails to disclose all the combination recited in the base claim 1. Specifically, the combination of a semiconductor structure comprising: a first substrate being disposed to face one main surface of the semiconductor element, being provided a plurality of first internal wirings on a main surface of the first substrate on a side facing the semiconductor element, and being provided a plurality of first external wirings being

electrically connected to the respective first internal wirings; and a second substrate being formed to be larger than both main surfaces of the semiconductor element by a material having flexibility, being disposed to hold the semiconductor element between the first substrate and the second substrate, being provided a plurality of second internal wirings having one-end portions extended to edges of a main surface of the second substrate on a side facing the semiconductor element on the main surface the second substrate on the side facing the semiconductor element, and the one-end portions of the second internal wirings electrically connected to the first internal wirings with being bent toward the first substrate together with the edges of the second substrate on which the second internal wirings are provided, being mounted the semiconductor element having at least one electrode electrically connected to some of the second internal wirings on the main surface of the second substrate on the side facing the semiconductor element, and being provided a plurality of external terminals being electrically connected to some of the second internal wirings on at least a middle part of a main surface of the second substrate on a side opposite to the side on which the semiconductor element is mounted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
